4. Student's strengths in practicum

I hope that Tim continues his work as a counseling social worker. He demonstrates a high regard for ethical treatment of clients and coworkers that is quite remarkable. Tim's listening and rapport building skills seem to come naturally to him. I have especially enjoyed his calming presence and sense of humor, delightful qualities when doing our work. Tim's computer savvy has been an extra for all our staff. And especially for me when time to synthesize the data from our assessment this year (using the PHQ9 to determine depression in SLCC students). Acknowledging limitations and questioning abilities was also a strength in Tim.

experience.. his contribution will undoubtedly help our field to grow and enhance the lives of others due to his integrity, intelligence and warmth.

I have offered Tim the opportunity to assist me in facilitating the Adult Transgender Support Group at the Utah Pride Center. I have also encouraged him to continue advocacy/psychotherapy training. His thoughtful and empathetic nature is needed in our world today.

Tim is an excellent and dedicated student, on intellectual tasks and in experiential contexts. I can always expect more than a 100% effort from him. He is skillful in connecting with students from a wide variety of backgrounds. While Tim grew up in this state, he has special insight and empathy into issues faced by nontraditional students, particularly those within the LGBT student population.

Hi Tim,

I felt kind of bad about talking your ears off, I'm usually more reserved and don't go about talking all the stuff that I do, specially with people I just met, but I just felt so comfortable talking to you. You're really great at what to do!

Hello

I just wanted to take a second and thank you for an amazing semester and class. I took three diversity classes this semester and learned the most from your class. Honestly you are one of the best teachers I have had to this day including High School. I have quoted in one final what you told us. *"It's not about you it's about them."* Thank you so

Thank you so much Tim! I really appreciate the positive learning and growing environment you created throughout this class, and I know it has helped me learn and change my way of thinking for the better. Thank you so much.

Hey Tim i don't know if you remember me but i took a class of yours about a year and a half ago. I just wanted to write you and tell you thank you. You have single handedly influenced/changed my life more than any other professor or teacher had ever before. You taught me so much about myself and other people, that had i not taken your class i never would have learned. As i get older i realize that if it wasn't for you i wouldn't be the person i am today, and for that i thank you. I hope you keep changing people's lives like you did mine. Again thanks a million your an incredible professor. I wish you the best of luck

- It made me think outside the box and not just about myself and how I feel.
- Amazing class, should be required for every student to take before graduating. One of the best I have ever had. I learned a lot, and it is all material that I can relate to the real world. This class helps students become more well rounded and knowle

What aspects of this class contributed most to your learning? (Please give specific examples)

- His teaching style. Very involved with the class, class discussions, great examples of real life situations. Working in small groups and being able to express our true feelings about a reading without worrying about being judged. Loved the environment
- the lectures were very good and were taught in a way that made me really understand.

I just want to say thank you for being one of the best teachers I have ever had, the true is that I wasn't sure about the class at first, but I'm so glad I decided to stay. I think that everybody should take your class before graduating. I feel like somehow it was a life changing experience for me. I don't know if I'll remember all the concepts we learned, but I do know that the way I see the world now is, so much different and better than the way I used to see it before I took your class. I feel like I am a better person now, and this kind of learning in school is so hard to get nowadays. So please know that you are doing an incredible job. Thank you so much.

Thank you so much Tim! I really appreciate the positive learning and growing environment you created throughout this class, and I know it has helped me learn and change my way of thinking for the better. Thank you so much.

Tim...is passionate about developing people. Tim has spent extra time reviewing my notes, providing constructive feedback, modeling how to provide services through role-plays, and available through phone call, text and emails throughout the last several months... In addition to never missing a supervision session with me. Tim has held me accountable to using evidence based practices and documenting my notes in such a way that it is a therapeutic tool as well as a professional record. Tim is sensitive to my needs as a student and as [a] therapist intern and is able to provide a space for me to learn and grow while providing advice both proactively as he sees fit clinically [,] and re-actively as I ask for it. Tim is also very strengths based and is quick to point out where I am doing well and improving. I love working with Tim.
